

## Focus on expertise

At UV DAYS in Nürtingen, we will be providing you with the latest information from the world of UV technology. The event will be taking place for the fifth time from 16 to 19 May 2011 at our company headquarters in Nürtingen. As a visitor, you will have the opportunity to meet and share ideas with experts from the printing industry.

There are presentations held in both German and English, workshops and demonstrations, as well as the chance to get-together at an informal evening event in the UV LOUNGE afterwards. Plenty of opportunities for you to interact with us and the other exhibitors at our UV EXPO!

16 – 19 May

**UV DAYS 2011**

Participation in UV DAYS is, of course, free of charge.

**We look forward to seeing you there!**

## UV DAYS 2011 - International industry get-together

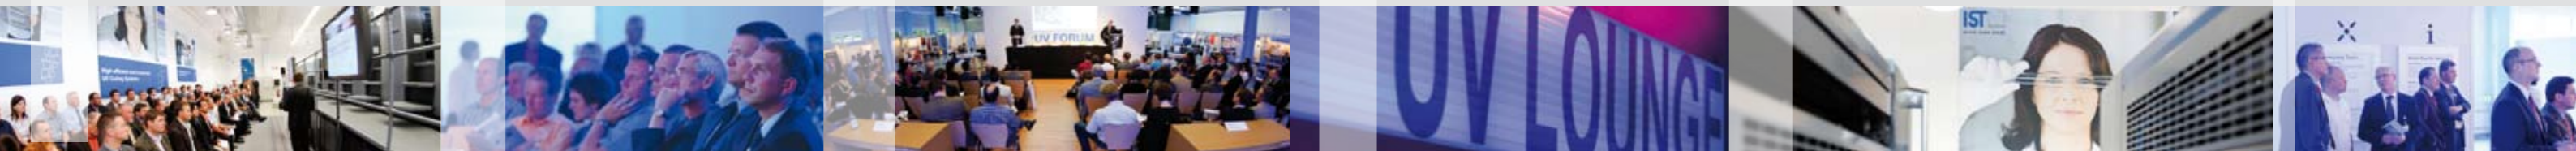

UV DAYS is not like a traditional trade fair. The event for UV printing is an opportunity to gather information and share professional experience – in a pleasant, informal atmosphere.

It is the perfect platform for both UV newcomers and experienced users to meet with fellow industry colleagues and to expand their information network. Renowned industry partners will also be on hand during the event to offer advice and impart expert knowledge (see insert).
