## WELCOME TO THE UV DAYS 2025

- THE WORLD'S LARGEST IN-HOUSE  
EXHIBITION FOR OPTICAL SYSTEMS!

For the twelfth time, IST METZ GmbH & Co. KG invites you to Nürtingen and traditionally offers a unique platform for technological innovation and personal exchange.

More than 40 exhibitors and partners from printing and industry will be demonstrating where the journey is heading under the motto Mission to Zero: towards greater efficiency, sustainability and technological precision - all in the name of conserving resources. As a technology leader in the field of UV technology, our aim together with our partners is not only to present you with state-of-the-art solutions, but also to provide new impulses for your applications, processes and products. Whether in the printing industry, the automotive sector or medical technology - UV technology offers diverse and sus-

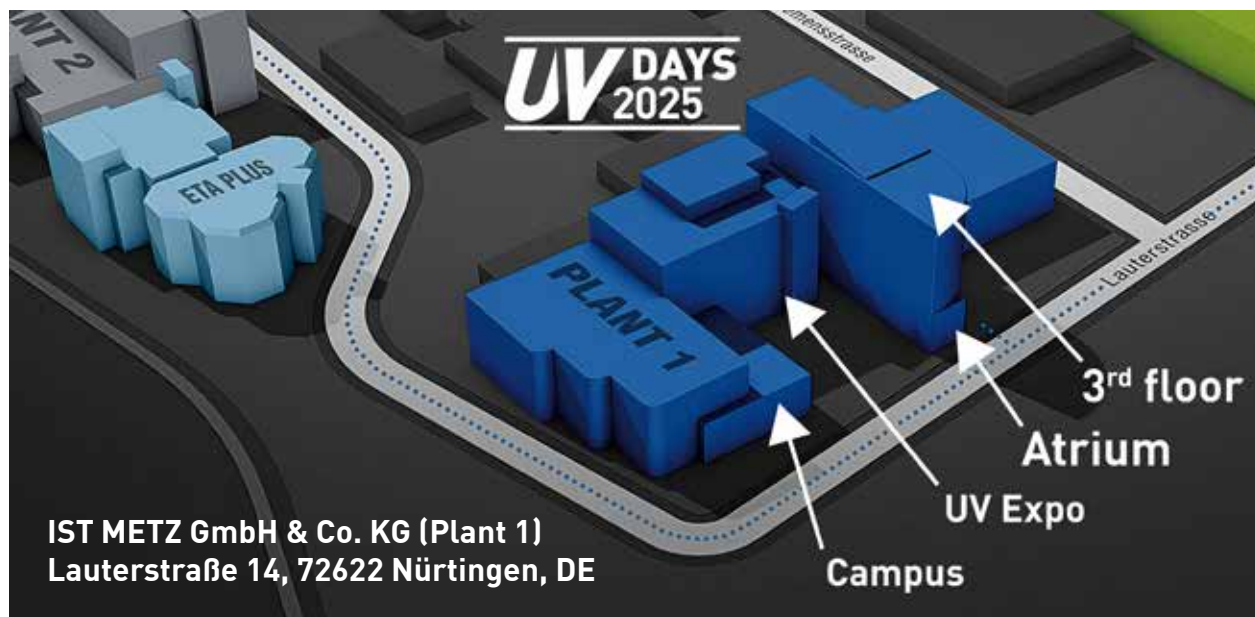

tainable opportunities to increase efficiency and improve quality.

Download the free UV Days event app 'UV Days 2025 - IST METZ' from the Apple Store or Google Play and plan your visit and programme items individually, receive up-to-date information and network directly with exhibitors and trade visitors.

We invite you to be inspired, take away new ideas and look into the future of curing technology together with us. We wish you an eventful and profitable visit to the trade fair.

Your Tim Sterbak  
CEO of IST METZ GmbH & Co. KG

- > Cab Team Wendlingen: +49 7024 501501

*Live personalisation – make your space  
shuttle unique with UV curing*

Ludwigsburg-based lettering artist Sigrid Artmann is once again a guest at UV Days. Her introduction to the artistic use of lettering was traditional calligraphy, the art of calligraphy. However, Sigrid Artmann soon found historicising copying too rigid in terms of expression and so she found her own way of translating writing and content into images. Experience live at the UV Days how a centuries-old art of letterpress printing is interpreted in a modern way and combined with UV and LED technology.

Have your print gimmick hand-finished with your initials by Sigrid Artmann. Information on the times can be found in the app.

## PROGRAMME UV DAYS

**UV DAYS**  
2025

**Tuesday, 3<sup>rd</sup> June\***

Time	Lecture	Where
10.00	Official Welcome	UV Expo
